MR. LOUIS BAGBY, *Interne.*

MR. A. L. TILTON, *Interne.*

For special information, address *Dr. Flavel B. Tiffany, Manager of the Hospital, 1005 Campbell St., Kansas C*

University Hospital, Kansas City, Missouri.

1005 Campbell Street.

On September 1, 1898, the Hospital reopened under its new name, the *University Hospital*. Previous to this time it had been known as All Saints' Hospital, and was at first under the auspices of Saint Mary's Episcopal Church; to-day it is governed by the University Medical College of Kansas City, Mo. The Hospital was closed during July and August for repairs. A new roof was put on, two of the wards converted into private rooms, new plumbing put in, besides many other changes were made, putting the building into a good sanitary condition. The operating-room has been newly supplied with aseptic tables, stands, electric adjustable light, electric cautery, electric batteries for electrolysis and galvanism, X-ray apparatus for photographing the interior of the body; uniform heat by means of electric coils for pneumonia, corneal ulcers, iritis, and uterine disease; a powerful electric magnet for removing metallic foreign bodies from the eye—in fact, all the most modern, up-to-date appliances are at the

disposal of the surgeon sending or treating patients here. This Hospital is open to all, without respect to *credo* in medicine or religion. While there is no fund back of the institution to apply to non-paying patients, the price of some of the rooms and the ward is so low as to be within the reach of people of limited means. It is the aim of the *Manager* to have at hand all the essential modern improvements, that the very best results from medical and surgical skill may be obtained.

Besides the Superintendent, there are two Internes and twelve trained nurses, who are not only competent but vigilant and faithful in the discharge of duty. Any physician sending or bringing patients here may rest assured that they will receive the most careful professional consideration and that every effort will be made on the part of the Manager, Superintendent, Internes, and nurses to bring about the most favorable conditions to recovery.

GENERAL OPERATING-ROOM, UNIVERSITY HOSPITAL, KANSAS CITY, MO.

Expenses.

Board in private room, per week.....	\$10.00 to \$20.00
Two persons in one room, for each.....	7.00
Ward patients, each.....	6.00

Extras.

Use of operating-room for capital operations.....	\$5.00
Minor operations.....	2.00

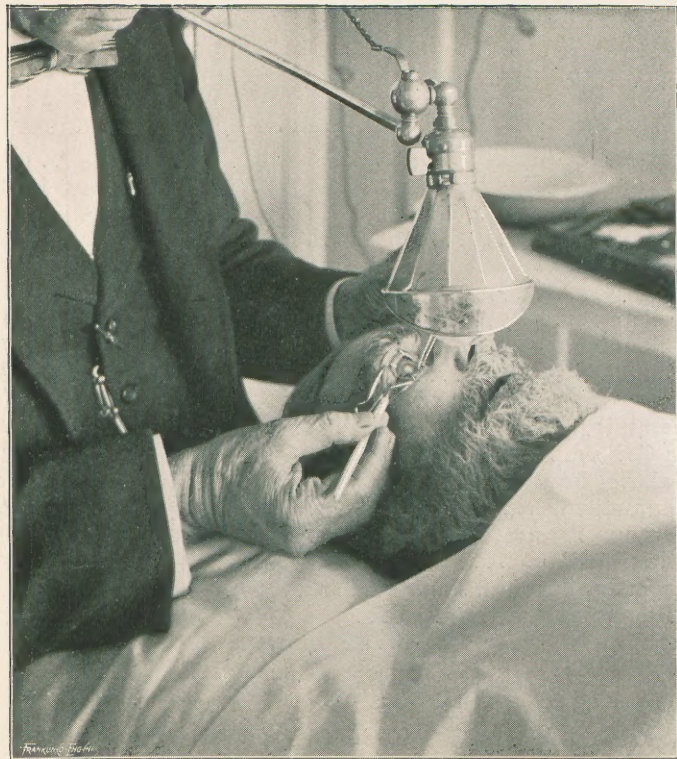

Dressings and medicines at actual cost.

Board, without any exception, must be paid one week or month in advance. For all protracted cases, such as laparotomy, one month in advance. Patients leaving previous to expiration of term paid for will have balance refunded. No incurable cases or those having contagious diseases will be admitted. Trained nurses are in attendance, who not only see that the doctors' orders are put into execution, but render kind and efficient service to the patients.

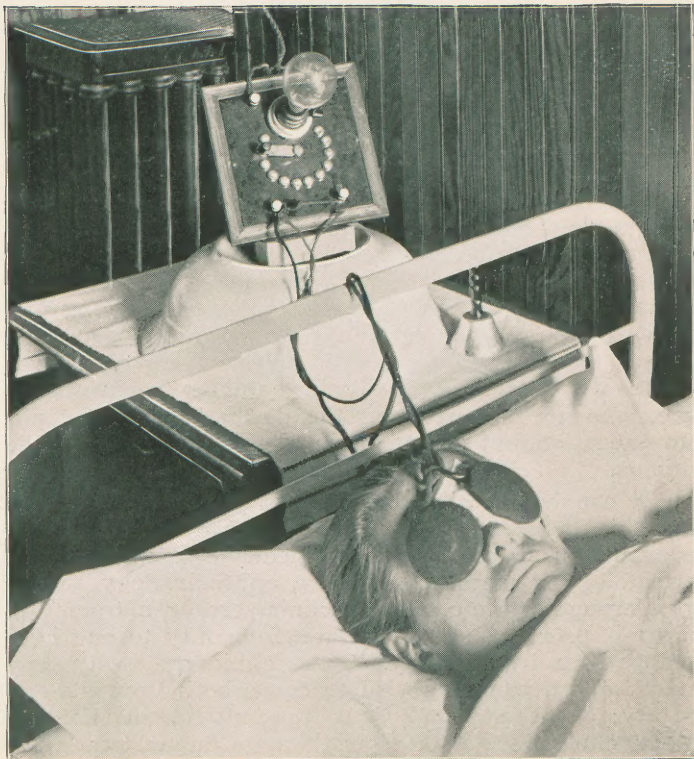

In connection with the University and adjoining the Hospital there are free clinics for patients in various departments; namely, surgery, medicine, genito-urinary, dermatology, gynæcology, otology, ophthalmology, rhinology, laryngology, etc. These clinics are open from 1 p. m. to 5 p. m. Here there are from fifty to one hundred patients treated daily. These clinics are open to any really *indigent* who may wish to come, both from city and country; only the *truly destitute* are admitted. At the eye and ear clinic alone about seven thousand annual treatments are given.

Report from September 1, 1898, to January 1, 1899.

SUPERINTENDENT AND NURSES, UNIVERSITY HOSPITAL, KANSAS CITY, MO.

University Training School for Nurses.

1005 Campbell Street,
Kansas City, Missouri.

A regular course of lectures by a competent Faculty, selected from members of the medical profession of the city, is given during nine months of the year, beginning September 1st and closing May 31st.

Requirements for Entrance to School.

Applicant must give evidence of a good moral character,
must be at least 22 years of age, and not over 32 years,
must possess a good English education, and
must be in good physical health.

Requirements for Graduation.

Applicant must be 24 years of age.
She must have attended two courses of lectures, the last in this school.

Fees.

Matriculation, first year.....	\$ 5.00	Lectures, second year.....	\$20.00
Lectures, first year.....	20.00	Graduation.....	5.00

An examination will be made at the end of each year, and Juniors receiving the best grade will be eligible to a place in the Hospital as nurses, whose services will be received in lieu of the fee for that year. They will be furnished with suits and board free of expense.

Those wishing to obtain the course of training must apply personally or by letter to the Superintendent, 1005 Campbell Street, Kansas City, Missouri.

An applicant should send with answers to questions in application blank a letter from a clergyman, testifying to her good moral character; also one from a physician in regard to health.

The pupils admitted to the Hospital receive board, room, and laundry during the course; they must be provided with dresses of wash material and white aprons for use during the probation months; after that time they will be provided with the uniform of the School.

The hours on duty are from 7 a. m. to 7 p. m. When possible, the day nurses are allowed time off for rest and study; also an afternoon during the week, and half of Sunday.

A vacation of two weeks is allowed each year.

When the full two years expire, after passing the final examination, each nurse receives a diploma. Pupils admitted to the Hospital are only required to pay the matriculation fee of \$5.00; those not entering the Hospital are required to pay \$5.00 matriculation fee and \$20.00 lecture fee for first year; second year, \$20.00 lecture fee and \$5.00 for diploma.

Graduate Nurses' Registry.

A Graduate Nurses' Registry has been established in connection with the University Training School, from which nurses competent to take charge of all kinds of cases can be supplied. This is for the mutual benefit and protection of physicians, patrons, and graduate nurses. Those wishing to employ a nurse should apply in person, by letter, telephone, or telegram, to the Superintendent of University Hospital.

Registered nurses' terms are \$20.00 per week, or \$3.00 per day, for all ordinary cases; \$25.00 for contagious, alcoholic, insane, or cases out of the city, unless different arrangements have been made; also arrangements by the employer must be made for traveling expenses and laundry.

Each nurse whose name is placed on this Registry must be a graduate of a first-class Training School; also must be well recommended by the Superintendent of her School or by a physician of good standing.

When a nurse makes an engagement, either obstetrical or surgical, she must consider herself bound to keep it.

The registering fee is \$10.00 per year.

DR. FLAVEL, B. TIFFANY, *Manager*,
1235 Grand Avenue,
Kansas City, Mo.
